## INSTALL INSTRUCTIONS OF DOUBLE-ENDED BYPASS LED HOUSING

## Please read the instructions carefully before installation

- 1. The fixture must not be installed above high-temperature devices. Do not install the fixture above a stove, gas line, or vent pipe to avoid any possibility of an accidental fire.
- 2. Turn off the power before installing or replacing the LED tubes. Do not alter the fixture or replace the original parts. This will avoid accidents involving the fixture/LED tubes falling, fire, or electrical shock.

## Maintenance of the fixture

- 1. In order to use the fixture safely and efficiently, clean the fixture regularly. Turn off the power before cleaning.
- 2. Wipe the fixture with a soft cloth damp with soap and water. Dry with a clean soft cloth. Do not wipe with oil, diluents, or other volatile liquids.

-
