

Smart RGBW LED String Light App Control

Download Free APP

Smart Life

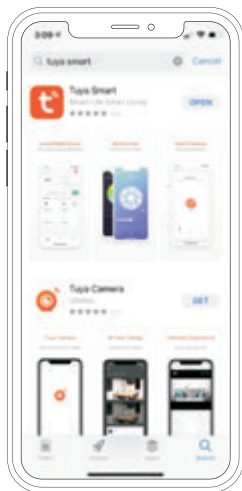

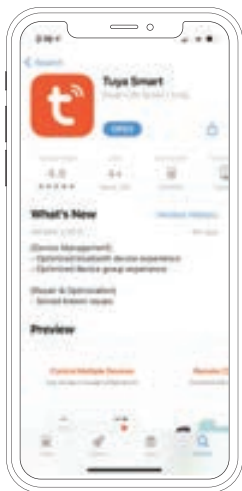

Tuya Smart

Step 1: Download APP
Download the Smart Life APP from
App Store or Google Play.

Step 1: Download APP
Download the Tuya Smart APP from
App Store or Google Play.

Step 2: Register

1. Enter your email address.

2. Enter the verification code and create a password.

**3. Create a password and
Log in the App.**

**4. Please enable the
Smart Life APP to get your
Bluetooth while using it.**

Step 3: Plug in

Plug Smart String Lights into any standard outlet.

Notes:

- 1. After power on, the light bulbs will automatically enter the connecting state (fast blinking);**
- 2. If there is no connection after 3 minutes, the indicator lights will remain on. If you want to add a device at this time, you need to press and hold the power button on the controller for about 5 to 7 seconds until the lights blink rapidly.**

Step 4: Add Device

▼ Auto Scan

Select "Add Device" or click "+" at the top right corner of the homepage.

- Please enable the Smart Life APP to get your Access location while using the APP.
- Fill in your 2.4GHz network name and password.
- Allow Smart Life APP to enable Bluetooth.

Step 4: Add Device

▼ Auto Scan

- The device in the connecting state will be displayed at the left of the page.

- Click "Next" and confirm your network again.

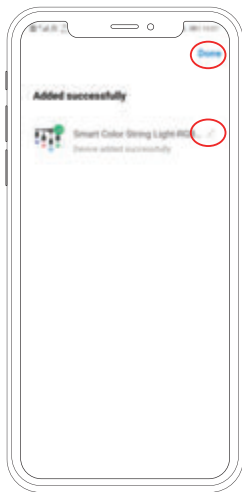

Step 4: Add Device

▼ Auto Scan

- The product starts to connect until it displays **100% complete.**

- After you edit the product name and save it, click **"DONE"** at the top right.

Please keep the router, mobile phone, and product as close as possible to ensure a good reception signal.

Congratulation!

Now you can use Smart Life APP to control your string lights.

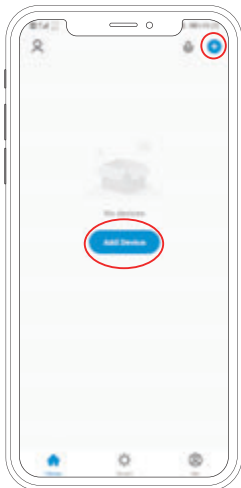

If your device is not automatically discovered, you can add manually.

Step 4: Add Device

▼ Add Manually

▼ EZ Mode

Select "Add Device" or click "+" at the top right corner of the homepage.

Choose Lighting - String Lights - String Light (BLE+Wi-Fi) from the device list.

Step 4: Add Device

▼ Add Manually

▼ EZ Mode

- Select "EZ Mode" on the upper right corner.
- If the light is not blinking rapidly automatically, please long press the power button on the controller for about 5 to 7 seconds, until the string lights blink rapidly.
- And click "Confirm the light is blinking rapidly".
- Follow the prompts on the interface to fill in your 2.4GHz Wi-Fi name and password, and click "Next".

Step 4: Add Device

▼ Add Manually

▼ EZ Mode

The device enters the state of connecting and distributing the network, then wait for the completion of adding the device.

**Having difficulty pairing the string lights with EZ Mode?
You could try the "AP Mode".**

AP Mode: If you cannot add a device with EZ Mode, or you are not sure whether the network is 2.4GHz, please try "AP Mode".

Step 4: Add Device

▼ Add Manually

▼ AP Mode

• Select "Add Device" or click "+" at the top right corner of the homepage.

• Choose Lighting - String Lights - String Light (BLE+Wi-Fi) from the device list.

- Select "AP Mode" on the upper right corner.
- Long-press the power button on the controller for a bout 5-7 seconds until the lights blink rapidly.
- Under the blinking state, long-press the power button for about 5-7 seconds until the lights turn to slow blinking (blink 1 time every 3 seconds). If they still blink rapidly, repeats this step until they blink slowly.

- Click "Confirm the light is blinking slowly".

Step 4: Add Device

▼ Add Manually

▼ AP Mode

- Follow the prompts on the interface to fill in your 2.4GHz Wi-Fi name and password, and click "Next".

- Select the hotspot "SamrtLife-XXXX" in the available network to connect. Please confirm that the hotspot network is connected successfully, then go back to the APP to start the connection.

Step 4: Add Device

▼ Add Manually

▼ AP Mode

- The device enters the state of connecting and distributing the network!
After the product is initialized, you can use Smart Life APP to control the string lights.

Besides "EZ Mode" and "AP Mode", you can use "Bluetooth Mode" as well.

Step 4: Add Device

▼ Add Manually

▼ Bluetooth

- Under Bluetooth Mode, please make sure you fill in your 2.4GHz network name and password already. And click "Confirm the light has flashed or breathed".

- Allow Smart Life APP to enable Bluetooth.

Step 4: Add Device

- ▼ Add Manually
- ▼ Bluetooth

• After 1 device is found, click "+".

• Confirm your network and click "Next".

Step 4: Add Device

▼ Add Manually

▼ Bluetooth

When added 1 device successfully,
Click "Next".

Congratulation!
